Barberry Thunbergii

Every Home Needs Hedges and Hedging

No item in use for landscape planting will improve the appearance of your property as much as a well trimmed hedge. Note artistic effect of low growing Barberry Thunbergii hedge at left and upright growing Iboia Privet hedge at the right.

A Few of Our Hardy Perennials

These Perennials when properly arranged will give a profusion of bloom continuing from Spring until Fall; also fine for borders and cut flowers.

Aquilegia (Columbine)—Assorted colors of bloom.

Chrysanthemums (Hardy Varieties) — Assorted.

Monarda, Fistulosa—Red flowering. June to Sept.

Shasta Daisy—White, June-Sept., free flowering.

Delphinium (Hardy Larkspur)—Blue, July-July.

Gaillardia, Grandiflora—Yellow to red, all summer.

Iris—A large assortment of colors, May to July.

Phlox—A great variety of colors, July-October.

Platycodon (Chinese Bell Flower). July August.

Trees Especially Adapted to Street and Lawn Planting

Norway Maple

Birch, Cut-leaved Weeping—40 ft. Extremely vigorous and hardy; white bark; drooping branches; finely cut foliage.

Catalpa, Speciosa—40 ft. Fragrant white flowers in July; open irregular growth; large heart-shaped leaves.

Elm, American White—60-80 ft. A magnificent tree with graceful drooping branches, a favorite fast growing tree.

Linden, American (Basswood)—50-60 ft. Fragrant yellow flowers in July; large smooth showy leaves.

Magnolia, Soulangeana—10-15 ft. Large cup-shaped white and rosy pink flowers in May in showy clusters.

Maple, Norway—50-60 ft. A beautiful handsome tree with spreading branches; round head; great favorite everywhere.

Maple, Schwedleri—30-40 ft. Handsome, with color changing foliage; crimson to green, red and brown.

Mulberry, Tea's Weeping—20-30 ft. A most graceful weeping tree; dense green foliage forms umbrella shape.

Sycamore, American (Buttonwood)—50-60 ft. A beautiful majestic tree with its bright foliage.

Sugar Maple—50-60 ft. A tall, handsome, moderately rapid growing tree. Autumn foliage gold and scarlet. Very handsome. Grows rather erect, but spreads nicely.

Shrubs Suitable for Screens and Backgrounds

Crab, Bechtel's Flowering—10-15 ft. Pink rose like flowers. May.
Elder, Golden-Leaved—6-8 ft. Clusters of white flowers. July.
Elder, Fern-Leaf—6-8 ft. White fragrant flowers in June.
Honeysuckle, Grandiflora, Bush—White flowers May-June.
Lilac, Purple and White—6-8 ft. Flowers in May-June.
Philadelphus, Grandiflora—White flowers in June.
Rhus, Cotinus—8-10 ft. Yellow green flowers in June, changing to purple and plumose.
Sumach, Fern-Leaf and Glabra—Flowers in July; beautiful autumnal coloring.
Tamarix—White or pink flowers, April-May; blue-green foliage.
Viburnum, Opulus Sterilis (Snowball)—Pure white flowers in June.

A Few of Our Shrubs for

Nifty Foundation Plantings

Calycanthus, Sweet Scented Shrub—4-6 ft. Deliciously fragrant flowers through summer.
Deutzia, Pride of Rochester—White flowers. May.
Forsythia, Intermedia—Yellow flowers in April.
Hydrangea, Paniculata Grandiflora—Hardy. Immense cone-shaped heads of flowers in September-October.
Honeysuckle, Tartarian Bush—Pink flowers. May-June.
Rhodotypos, Kerroides—Single white flowers in May.
Snowberry, Red and White—Flowers in July; white berries.
Spiraea Vanhouttei, Bridal Wreath—White flowers. May-June.
Syringa, Philadelphus Coronarius—White flowers. May-June.
Weigelia, Rosea—Pink flowers in June; an old garden favorite.

Home Beautifying

The principles of proper planting are not hard to master. The shrubs should be massed into corners and borders, and a selection made differing in height so that all of them can be seen and intermingle in effect, with their bloom coming at different seasons so that they are always interesting. You can easily choose this graduation from the lists referred to. One often sees an elegant house that lacks the final touch to change it into a "home." Landscape planting is the frame of the picture; the artistic setting; that final touch that changes your house to a home.

As a background or a frame to the picture which is to be created, shrubs or trees are indispensable. The idea being to have the surroundings harmonize so that the impression will be comfortable and home-like. If you need any assistance in producing an artistic effect our landscape department is at your command

General Information

HOW VERY SELDOM it is that the home builder gives the same thought and consideration to his outdoor home surroundings that he gives to the interior of his home! Do we not enter a man's home the moment we set foot upon his property, and not, as generally accepted, when we cross his threshold?

One may have an "elegant house" but it is impossible to have a beautiful home that is not surrounded in some degree with the verdure of nature. No matter how substantial or how costly, no building is complete until it is set in a frame of God's own making. Many an old and unsightly house has been made beautiful with the trees, foliage and flowers, with which it is surrounded.

It is essential, therefore, that our exterior surroundings reflect us truly. No matter how small the space; it is possible to beautify it and suggest the taste and refinement of the owner. If the arrangement is artistic and orderly there can be no doubt of the judgment of neighbor and passer-by.

ROSELAWN NURSERY is prepared to submit plans made by an expert Landscape Architect, for the planting of home grounds, Schools, Factories, Parks and Cemeteries, and execute them by doing the planting, if desired. As much thought and care is required in planting the small home ground as that of the larger mansion and it is our aim to give individual attention to each place we are called upon to plan. We have no stock designs. It will be our aim to correctly frame any architectural features of the house, to screen out any unsightly views, to establish vistas and properly decorate and plant the garden if one is to be provided. Every tree and shrub, every plant and plantation will bear a definite relation, one to the other, in the general scheme.

COST: As much as we would like to do so, it would be obviously impossible for us to make these plans free of charge; we would be swamped with requests, many of them out of idle curiosity; against this we must protect ourselves and in order to do so, we have made the following schedule of charges for plans:

For grounds having an area of not over 50x200 feet	\$2.50
For grounds having an area over 50x200, but not exceeding 100x200 feet..	\$5.00
For grounds having an area over 100x200, but not exceeding 200x200 feet..	\$7.50

On larger areas special estimates will be submitted upon request. Personal visits of inspection will be made by our Landscape Architect to all places in or near Pueblo, when desired.

MATERIAL: We do not handle cheap, under-graded stock; all of our trees, shrubs, vines and plants are the best of their kind, they are grown in our nurseries and we positively know them to be hardy and thoroughly acclimated. The prices are as low as is possible, consistent with first grade material and honest service.

On the attached sheet make a rough sketch of your grounds as per directions in note on bottom of sheet. We will be glad to have you indicate any trees, shrubs or plants that you especially desire and we will endeavor to include them in the plan. It will be an easy matter for you to follow the plan and make the planting yourself, but if you prefer we will, as suggested above, make the planting for you. Send sketch, with remittance to cover fee, to

(A Photograph of your place will be
of material assistance.)

Address.....

NOTE—The sketch need not be drawn to scale, but should give the principal dimensions, direction the house faces; North, East, South or West, and the location of entrances, dimensions of buildings, and windows in foundation, etc.; also location of walks, drives, if any, fences, trees and shrubbery, or other permanent things established that are not to be removed. Also location of all entrances to lot and buildings, any objectionable views to be retained, and terraces, or grades of any importance. Unless we have this information it will be impossible to prepare a plan that will be practical.

[illegible]

The picture on the left shows a pleasing planting about an entrance. The honeysuckle vine entwined about the porch adds charm to the residence. The picture to the right shows good use of the *Hydrangea paniculata grandiflora* as a foundation and porch planting. A climbing rose is here used to advantage in the decorating of the large porch.

Foundation Planting for Factories

The plantings below show the value of mass planting. The one on the left consists of *Barberry Thunbergii*, *Deutzia Gracilis*, and *Englemanni Ivy* which is the vine that, in a few years will thoroughly beautify this home. The picture on the right is of an ideal home and shows good use of a specimen tree. The shrubs planted surrounding this home are: *Snowberry*, *Syringa*, *Rhodotypos*, *Barberry Thunbergii* and *Fragrant Sumac*.
